

# RecycleHelper Usability Testing - Form 3

Thank you for agreeing to take part in my final (thank goodness) round of testing for my final year project! The structure for this round is different to the previous two, and instead involves 3 forms.

The first is to collect the relevant information to make sure that the app contains your specific location information and to assess your initial level of recycling knowledge.

The second aims to guide you through usability testing the app. This form will be anonymous, to help remove any potential bias that may have arisen when performing the previous stages of testing (e.g. feeling like you couldn't say a low score to my face). I hope that this will allow me to gain a true representation of the usability of the app.

The final form (this one) is a final recycling knowledge test, aimed to assess whether the app improves your recycling knowledge, and if so, by how much. This form should be completed after using the app for a few days, and the app can also be used at the same time as completing the test.

Each form should take less than 10 minutes to complete! So just sit down with a cup of tea (or whatever your poison is) and enjoy!

Thanks so much in advance :)

## General Information

### 1. Full Name \*

*To allow me to pair up the responses of the first and last form for comparison.*

## Recycling Knowledge

The purpose of this section is to obtain data about your perception of, as well as your actual, level of recycling knowledge, designed to act as a comparison for the same data that I will collect after you have been given access to my app.

The aim of collecting this information is to assess the impact of my app, and not to assess your personal knowledge. To that effect, for this form, feel free to use the app to help you answer the questions. I will not inform you whether your answers are correct or incorrect.

Please answer the questions specific to recycling in your current location, as that is how I will mark them. If you are not currently based in the UK or Ireland, please answer based on where you live in the UK.

### 2. How you assess your recycling knowledge and practices \*

	Strongly Disagree	Disagree	Neither Agree or Disagree	Agree	Strongly Agree
I confidently know how to recycle things	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If I don't know how to recycle something, I find out and then follow the information	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If I don't know how to recycle something, then I just throw it out	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I am motivated to recycle, and to do so correctly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
